# MOZAMMIL AHMAD

MEAN-Stack Developer with
Cloud Integration Expertise

Address Ranchi Jharkhand India 835217
Phone +91-9576937873/8709938657
Email mozammilahmad667@gmail.com

EDUCATION

Qualification	Institute/University	Examination	Passing Year	Marks Obtained
Post-Graduation	Marwari College Ranchi	Master in computer Application	2022	80.93%
Graduation	Gossner College Ranchi	Information Technology	2018	63.11%
Intermediate	BSEB	12th	2014	49.56%
Matriculation	CBSE	10th	2011	76%

KNOWLEDGE AND SKILLS

- Languages: C, C++, JavaScript
- Database: SQL, Mongo DB
- Web Technology: HTML, CSS, JavaScript
- Frameworks: Angular, Express, Bootstrap
- Version Control: GitHub, Bitbucket.
- Databases: MySQL, Mongo dB
- Build Tools: Maven
- Ticketing Tool: Jira
- Infrastructure Tool: Terraform, CloudFormation
- CI /CD Tools: GitHub Action
- Monitoring Tools: CloudWatch
- Artifactory Repos: Nexus Repository, simple storage service
- Containerization Tool: Docker
- Configuration Management: Ansible
- AWS Database: MySQL
- Web Server: Apache Tomcat
- Server Operating System: LINUX, Ubuntu, Windows

PROFESSIONAL SUMMARY

Versatile MEAN-Stack Developer with a proven track record in crafting robust web applications using MongoDB, Express.js, Angular, and Node.js. Proficient in translating complex business requirements into efficient and scalable solutions, spanning from creating dynamic Angular interfaces to developing resilient Node.js server backends. Recognized for seamlessly integrating cloud services to optimize performance, scalability, and reliability. Known for delivering innovative solutions that harness the full power of cloud services to meet and exceed business objectives

WORK EXPERIENCE

Teckube |New York (Remote)
Software Development Engineer | SDE1- Full Stack Developer (Node.js, Angular)
July 10th ,2023 - Present

Key Achievements
- Developed and maintained robust web applications using Node.js and Angular, contributing to project Aikube.io
- Translated complex business requirements into efficient and scalable solutions, resulting in quantifiable improvements.
- Recognized for seamless integration of cloud services (AWS) to optimize performance, scalability, and reliability.

Responsibilities
- Collaborate with cross-functional teams remotely to design and implement scalable solutions.
- Execute responsibilities effectively in a remote work environment, ensuring high performance and responsiveness of applications.
- Participate in the entire software development lifecycle, from concept and design to testing and deployment
- Work with MongoDB to design and implement efficient database structures.
- Utilize Express.js and Node.js for server-side logic and RESTful API development.
- Implement dynamic and interactive front-end solutions using Angular.
- Worked on Bitbucket and GitHub as a version control, comfortable with the standard pull, commit, push, branch, merge flows.
- Knowledge in all phases of software development life cycle (SDLC) from Analysis, Design, Development, testing, and installation.
- Proficient in AWS services like VPC, EC2, S3, ELB, Auto Scaling Groups (ASG), EBS, RDS, IAM, Cloud Formation, Route 53, CloudWatch, Cloud Front, CloudTrail.

DECLARATIONS

I hereby declare that the information furnished above is true to the best of my Knowledge.
